SUPERAntiSpyware

Remove spyware. NOT just the easy ones!

General Configuration

- Start SUPERAntiSpyware with Windows
- Show splash screen on startup
- Disable anonymous threat reporting
- Run SUPERAntiSpyware in the background
- Enable right-click file options in Explorer

Window Colors:

Start-Up Scanning

- Do not scan at startup
- Start a Critical Point Scan
- Start a Quick Scan
- Start a Complete System Scan
- Start a Custom Scan
- Check for updates before scanning
- Hide the UI while scanning

E-mail Alerts

- Send notification e-mails to:

Notification Events

- Scheduled Scan Logs
 - Clean logs (no detections)
- Scheduled System Investigator Logs

Reset Program Options

Resetting the program options will restore the configuration as if this were a clean install.
